TECHNICAL SKILLS

- Cloud**
AWS fundamentals, Amazon S3, IAM, GitHub Actions, OIDC
- Servers**
Windows Server 2022, Ubuntu, Active Directory, DNS, DHCP
- Virtualisation**
Hyper-V, failover clustering, TrueNAS
- Networking**
TCP/IP, OSPF, Cisco Packet Tracer, routing
- Platforms**
Nextcloud, hMailServer, SMTP, IMAP
- Security**
Risk assessment, security awareness, access control

EDUCATION

- Diploma of Information Technology**
Advanced Networking / Cloud Engineering
TAFE Queensland · 2026-current
Expected completion: Dec 2026
- Pathology Collection**
TAFE Queensland · 2022
- Bachelor of Physiotherapy**
UNIJORGE (Centro Universitário Jorge Amado) · Salvador, Brazil · 2014

PROFESSIONAL

Customer success · Relationship building · Clear communication · Problem resolution · Leadership · Multidisciplinary teamwork

LANGUAGES

English · Portuguese

Rafael Lemos

APPLE SPECIALIST · CLOUD ENGINEERING

Customer Success · Technical Support · AWS · Infrastructure

PROFILE

Apple Specialist, qualified physiotherapist and customer-focused professional developing a career in cloud engineering and technology. Combines customer-facing technology, healthcare, team leadership and technical-support experience with clear communication, relationship building and calm problem-solving. Develops practical AWS, infrastructure, Linux, Windows Server and networking capability through hands-on projects.

EXPERIENCE

- Specialist** JUL 2026-PRESENT
Apple
- Working in a customer-facing technology role while continuing Cloud Engineering studies.
- Hospital Pathology Collector** 2023-2025
Sullivan Nicolaides Pathology
- Managed sensitive patient data and specimens with strict privacy, accuracy and regulatory compliance.
 - Used hospital information systems to track collection and testing workflows accurately.
 - Collaborated with multidisciplinary teams and communicated clearly in high-pressure environments.
- Hospital Pathology Collector** 2023
QML Pathology
- Delivered professional patient care while maintaining accurate records and timely information exchange.
 - Applied attention to detail, organisation and confidentiality across daily clinical workflows.
- Team Leader / Detailer** 2019-2022
Cranks Carbon
- Led staffing, recruitment, onboarding and training while coordinating workload, safety and quality standards.
 - Allocated team members according to job size and operational requirements.
 - Monitored performance and improved processes in a fast-paced operational environment.

SELECTED TECHNICAL PROJECTS

- AWS Cloud Portfolio**
Deployed S3, CloudFront, Route 53, HTTPS, GitHub OIDC CI/CD and a Lambda-DynamoDB visitor counter.
- Enterprise Server Lab**
Windows Server, Ubuntu, AD, DNS, DHCP, TrueNAS and two-node failover clustering.
- Cisco OSPF Lab**
Configured and troubleshoot multi-router dynamic routing and end-to-end connectivity.
- Communication Platform**
Integrated Nextcloud, hMailServer, Thunderbird, SMTP and IMAP in a virtual lab.
- Cybersecurity Program**
Assessed workplace risks and developed prioritised awareness and training controls.
